

FIG. 1 is a block diagram of a system for providing electronic posters to subscribers. The system includes a network 16, a web server for subscribers 18, an application server 26, a web server for kiosks 20, a database server 22, and a work station 24. The web server for subscribers 18 is connected to the network 16 and the application server 26. The application server 26 is connected to the web server for kiosks 20. The web server for kiosks 20 is connected to the database server 22. The database server 22 is connected to the work station 24. The system also includes a subscriber work station with a browser 38, a subscriber kiosk server 42, and an electronic poster display 40. The subscriber work station with a browser 38 is connected to the network 16. The subscriber kiosk server 42 is connected to the network 16 and the electronic poster display 40. The electronic poster display 40 is connected to the network 16.

☒ Select

### Attitude

Combine enthusiasm and optimism with a dash of perseverance and boldness, and you can usually charm the socks off just about anyone.

☐ Select

### Safety

In a dangerous environment, courage does not emerge from risk-taking, from pushing forward fearlessly, from acting macho. Rather, it comes from insisting on prudence.
